

KEY SERVICES: **Entertainment Facilities**

Entertainment venues and events are developed by both public sector agencies and private developers. These facilities are specially designed and purpose built to cater to mass audiences. The capital cost of these facilities demands an in-depth analysis of their feasibility the economic impact that they generate.

Horwath HTL has provided consulting services for numerous entertainment projects worldwide including Casinos, Theme Parks, Arenas, Stadiums, Race Tracks and multi-purpose venues that include retail and hotel accommodation.

We assist in providing:

- Conceptual development and planning services in conjunction with the development master plan;
- Marketing, investment, and development strategies;
- Market studies for the various project components;
- Cash flow projections;
- Investment analysis of the overall project; and,
- Assist in identifying qualified potential operators and financing partners.
