

KEY SERVICES: **Litigation Support**

Horwath HTL has extensive litigation support experience in matters and projects involving hotels, and restaurants. Members of our firm have appeared as expert witnesses before various Provincial Assessment Boards and Canadian Courts.

Horwath provides value early on in the genesis of a litigation matter, when contributions to strategy and approach are most important and can have the greatest positive impact on the results to the client.

Members of our firm have also worked on numerous cases that were settled, both pre- and post-deposition, and have provided the analyses and support underlying the testimony of other experts.
